

Minutes FSCL Meeting 2022/07/01

Attendees: Maximilian, Sven, Tilman, Urban, Urs, Jule

Minutes: Jule

Chairperson: Urs

Urs officially opens the session.

TOP 1 Freshmen

Everything seems fine. Idea: Maybe create a Telegram group for all IMS students.

TOP 2 Answering mails

Last mails: members for study commission, next Fachgruppenvernetzungstreffen

There are no new relevant mails.

TOP 3 Money spending

We collect money for plant ourselves. All pay 2€ to Urban for the plant.

We wait for an approval of stuvus for the table tennis table.

The shopping lists for kitchen and soft furniture stuff are "complete". **Someone** still needs to search for a beanbag. **Tilman + Shawon** fill out application forms for these.

Table tennis table: stuvus approved buying the table tennis table! 😊 But they mentioned that FIUS might have a spare one. Before buying the new one we should ask FIUS.

Soft furniture stuff: stuvus approved buying the blanket and the pillows. 😊 As stuvus can't directly buy from IKEA we have to do it. Thus we need to order the blanket and pillows (billed on stuvus) and then send stuvus the bill later to get the money back.

Kitchen stuff: Let's wait with applying for the kitchen stuff until we have (bought) the table tennis table and soft furniture stuff.

We can't find who is currently listed as holding a core office. We should write in general to stuvus to update the responsible people in the offices.

Urban + Urs + Max	Go to FIUS and ask for a spare table tennis table.
Tilman/Shawon	Both decide who buys the furniture stuff and the chosen one buys it.
Urs	Informs stuvus about which persons currently hold core offices.

TOP 4 Old exams

Many scans (and screenshots) in the collection. We choose the new idea with the master list and only contain overview in ILIAS. **Urban** removes the folder from ILIAS and replaces it with a list.

We postpone this topic.

TOP 5 Student elections

From 28.06.2022 (10 a.m.) until 07.07.2022 (3 p.m.) are student elections. To ensure that the student administration represents the students it's important that many students vote. We definitely should encourage the IMS students to take their chance and vote!

Urs	Informs IMS students via mail.
All	Spread the word about the current elections.

TOP 6 StuKo

Topics: GPU capacity, code of conduct on server use, lectures of Dr. Wokurek; we elected 4 new members for the StuKo; **Urs** responds to mail

We close this topic.

TOP 7 Creative Writing AI magazine

Project of Linguistics department: Include AI-generated texts. **Urban** meets with responsible people.

The deadline to hand in articles would be on 01.08.2022. Sadly it's not possible for us to organize something until then.

The hard deadline (meaning the time when the articles need to be ready to be printed) is on 15.09.2022. Maybe until then there's a slight chance to generate some texts with some existing pretrained models – let's see.

TOP 8 HowToFachgruppe-document

Let's complete the entire document at the end of our sessions together. We should also distribute some tasks.

We postpone this topic.

TOP 9 (Team) Events

We need to wait if we get the money back from the "social integration money".

Next grilling event on 23.07.2022; we should organize snacks & drinks; eventually plan it as picnic.

Plan for now: Grilling event happens on 23.07.2022. In case we can't use the public Grillplatz we will inform the students short-term about the transformation into a picnic/changed location. Students should bring their own food, we should encourage them to also prepare food. We want to buy drinks and snacks (probably on the same day before the grilling event starts). We need to write an application for that to stuvus.

Urban	Invites students to grilling event via email.
Urs	Tries to apply for money for the drinks & snacks at stuvus.

TOP 10 Tutorials next semester

Question: As the last years' tutorials were not really "used" by students, do we still want to offer those next semester? ⇒ We are in favor to try it once again. There are multiple reasons for this decision: The last semester(s) were held online only or in a hybrid mode, we're hoping for many bachelor Ersties, with those courses many students struggle with, ...

As for now we want to keep the tutorials for next semester and check after some time how many students actually participate. We should look for some tutors/check if the current ones want to continue.

Sven	Texts the current tutors and checks if they want to continue tutoring next semester.
-------------	--

TOP 11 Server Space

The wiping mechanism will happen starting from July. **Urs** spreads the information to the IMS students.

The space will be swiped today! It's not yet happening automatically as the script is not proof-read yet.

Urs officially closes the session.

Topics to keep in mind:

- Job fair: Organize to integrate some cl-companies to the job fair of computer science next semester.
