

Minutes FSCL Meeting 2022/07/08

Attendees: Maximilian, Sven, Urban, Urs, Jule

Minutes: Jule

Chairperson: Urs

Urs officially opens the session.

TOP 1 Freshmen

Everything seems fine. Idea: Maybe create a Telegram group for all IMS students.

As the next semester is coming closer, we should make a Telegram group that can be joined by all IMS students. This will make it easier to forward information to the students without using email, Discord, ... There already exists a large group, let's just invite the students via link to this group.

Max Sends invitation link to Telegram group via email.

TOP 2 Answering mails

Last mails: members for study commission, next Fachgruppenvernetzungstreffen

Email "Erstsemestereinführung 2022 – Welche FGn machen bei der Stadtrallye mit?":

- A city rallye is planned as part of the introductory events next winter semester. It happens on 12.10.2022 from 10-17:30.
- There's a kick-off meeting happening on 12.07.2022 at 6 p.m. (online or in V27.02). Someone of us should join it.
- Will we be able to offer a station? → We could split the time in two or three shifts, each held by two to three SRs. Let's be optimistic and hope some of us are available at this time.
- As we want to participate in the city rallye, Urs filled out the survey.

Email "Request for previous exam":

- A student asking for "IT Service Management".
- Urban and Urs already replied that we don't have old exams covering this module.

Email "Altklausur ausleihen":

- A student asking for several old exams. We should have them in our collection.

Email "Question about barbecues on campus":

- She wants to organize a grilling event and asks us for advice.
- Note: We have own grill and banks we could use for such kind of events.

The other mails were classified as irrelevant.

All	Save the date (12.10.2022) and make sure you're available for at least one shift.
Jule	Responds to (German) old exam request.
Urs	Responds to D. T. and lets her know how we usually organize such events.

TOP 3 Money spending

We collect money for plant ourselves. **All** pay 2€ to Urban for the plant.

Table tennis table: **Urban/Urs/Max** go to FIUS and ask for a spare one. Alternatively we have the approval to buy a new one.

Soft furniture stuff: We have the approval. Either **Tilman** or **Shawon** buys the things.

Kitchen stuff: We wait until we have the other things. Also: **Someone** still needs to search for a beanbag.

Urs checks / informs stuvus about which persons currently hold core offices.

Urban, Urs and Max got the table tennis table from FIUS, it looks pretty good. We should let stuvus know that we don't need a table anymore.

The soft furniture stuff is delivered. Tilman will bring it to the SR room the next time he's at the institute.

TOP 4 Old exams

Many scans (and screenshots) in the collection. We choose the new idea with the master list and only contain overview in ILIAS. **Urban** removes the folder from ILIAS and replaces it with a list.

General procedure from now on: Urban responds to English requests, Jule responds to German requests. We won't put the FSCL-mailing list in CC to reduce the "spam". We always share the master link.

As the amount of (scanned) old exams is limited we should slowly replace them by retyping / changing them. If some of us SRs are able to do one or two per week this should be done quite fast. We need to organize this.

Urban Puts master link to old exams into WhatsApp group description.

TOP 5 Student elections

Current student elections from 28.06 (10 am) until 07.07 (3 pm). **Urs** informs IMS students via mail. **All** should spread the word to remind students to take their chance and vote.

As the elections are over we close this topic.

TOP 6 Creative Writing AI magazine

Project of Linguistics department: Include AI-generated texts. We sadly can't meet the deadline on 01.08.2022. Maybe we can generate some texts with pretrained models until 15.09.2022 (= hard deadline).

It's not feasible to organize this project with all IMS students. Eventually some of us SR can generate some texts. There's a group for getting into further discussion.

All If you want to contribute to this project, let us know and we'll add you to the group.

TOP 7 HowToFachgruppe-document

Let's complete the entire document at the end of our sessions together. We should also distribute some tasks.

We postpone this topic.

TOP 8 (Team) Events

We need to wait if we get the money back from the "social integration money".

Next grilling event on 23.07.2022; we should organize snacks & drinks; eventually plan it as picnic. **Urban** invites students to grilling event via email. **Urs** tries to apply for money for the drinks & snacks.

Current state: The Grillplätze are not closed anymore.

Urban | Writes email to students to invite them to the grilling event.

TOP 9 Tutorials next semester

We want to offer the tutorials for bachelor students next semester as well. **Sven** texts the current tutors and checks if they want to continue tutoring next semester.

Sven first needs the contact data of the tutors. Our tutors are Dustin (Maths) and Johannes (Theoretical computer science). Urs forwarded the details to Sven.

Sven | Reaches out to the current tutors.

TOP 10 Server Space

The wiping mechanism will happen starting from July. **Urs** spreads the information to the IMS students. The script needs to be proof-read.

Urs | Informs students via email about the "new" server space.

Urs officially closes the session.

Topics to keep in mind:

- Job fair: Organize to integrate some cl-companies to the job fair of computer science next semester.
