TOP 1 Freshmen

Introductory Event:

- Masters introductory event on 30.03.2023 2pm, in a hybrid setting.
- Some of us should be there to present how ILIAS and C@mpus work.
- 36 students are accepted to the Masters program. But we don't know who actually starts studying and we also don't know how many students will be there in presence.
- We want to offer some pretzels and soft drinks. Let's make a delayed money application for Ersti events (where we would get 1€ per person).
- This time we should remember to make an attendants list with signatures to make sure we get the money from stuvus.

Pub crawl:

- We want to organize a pub crawl for the Ersties.
- Maybe VB and Marc can organize it; it's up to them to fix the date. (Idea: 14.04.2023). The date should be set before 30.03.2023 to be able to tell it to the Ersties.

Pub quiz:

- We want to organize a pub quiz in April that is hosted by us.
- Let's keep the questions more general, and don't only focus on study topics.
- We should already start collecting some questions.

Urs	Makes money application for the introductory event.
Urs	Asks Stefanie for number of participants of the introductory event.
VB, Marc	Organize a pub crawl
Urs	Creates google document to collect questions for the pub quiz.
All	Enter questions for the pub quiz into the google document.

TOP 2 (Team) Events

Marc does the Abrechnung for the IMS-weekend.

Events: Maybe picknick / video games / opera / theatre.

Tonight (15.03.2023), starting at 6:30pm we will host a chill evening with possibilities to do karaoke, paint, play boardgames. Money for drinks can be taken from the Getränkekasse. Students have to pay drinks for 1€. Other costs will hopefully be covered by donations from the students. Let's meet at 6pm to set up the rooms.

TOP 3 Sperrmüll

We don't know how, but the old table tennis plates just disappeared.

We close this topic.

Urs officially closes the session.
